

F300 Whole-House Electronic Air Cleaner

F300 Whole-House Electronic Air Cleaner

The high-performance, low-maintenance solution to cleaner air

The Honeywell Home F300 Whole-House Electronic Air Cleaner is the most advanced and easy-to-use solution for improving your indoor air quality. When installed into your home's heating and cooling filter, an Electronic Air Cleaner traps and filters up to 99%* of airborne particles passing through the system to make sure cleaner air is distributed to all rooms in your home. It works by placing a charge on airborne particles and then collecting them like a magnet. Plus, Electronic Air Cleaners are low maintenance – simply wash the cells in your dishwasher or sink when needed.

Advanced Technology

Places an electric charge to collect up to 99%* of airborne particles passing through the filter.

Highly Effective

Captures both microscopic particles like dust and smoke in addition to larger contaminants like mold spores and pet dander.

Low Maintenance

No replacement needed. Requires only periodic washing of air cleaner cells.

Superior Performance

The F300 is up to 30 times more efficient at capturing airborne particles compared to a standard one-inch filter

Three-Stage Filtration

Particles enter three layers of filtering, with optional exclusive electrostatic postfilter.

Whole-House

Cleans the air in all rooms throughout your home.

Widely Compatible

Works with virtually all residential forced air systems.

Easy to Upgrade

Get even higher performance when the postfilter (included) is used.

Exclusive 10-year UltraClean Coil Guarantee
